OVER

CONDITIONS GOVERNING THIS REPORT

1. This report is based on observations and opinions of the inspector. It must be noted that all buildings have some structural wood members which are not visible or accessible for inspection. It is not always possible to determine the presence of infestations without extensive probing and in some cases actual dismantling of parts of the structure being inspected. Extensive probing and dismantling have not been performed.
2. This inspection and report are made on the basis of what was visible at the time of inspection. An opinion is not given on areas that were enclosed or not readily accessible: finished areas of ground level rooms (basement and split level); areas concealed by wall coverings, floor coverings, furniture, equipment, stored articles; or any portion of the structure in which inspection would necessitate tearing out or marring finished work. Furniture, appliances, equipment, insulation, fixed ceilings, etc. were not moved for inspection purposes.
3. Inspection did not include any area to which visible access would require the use of ladders or drills. Such areas are not considered to be readily accessible.
4. Detached garages, sheds, lean-tos, other buildings or fences on the property are not included in this inspection report unless specifically noted.
5. Neither I nor the company for which I am acting have had, presently have, or contemplate having any interest in this property. I do further state that neither I nor the company for which I am acting is associated in any way with any party to this transaction.
